E-CHARGE FORUM 2026

International Summit on
Electric Vehicle Charging Technology
& Infrastructure Developments

THEME: Charging Ahead:
Building the Future of Sustainable Mobility

01 SEPTEMBER 2026
INDIA EXPO CENTRE
Greater Noida, U.P., India

TOPICS

- EV Charging Infrastructure
- Fast Charging & Ultra-Fast Charging Technologies
- Integration of Renewable Energy with EV Charging
- Grid Modernization and EV Integration
- Battery Technologies and Charging Innovations
- Investment, Financing & Business Models
- Battery Swapping Ecosystem
- Policy, Incentives & Regulatory Framework
- Emerging Technologies in E-Mobility
- Sustainability and Circular Economy

CONCURRENT EVENTS

• GREEN DRIVE 6.0

CLEAN ENERGY CHARGING FUTURE

E-CHARGE FORUM 2026

International Summit on Electric Vehicle Charging Technology & Infrastructure Developments

E- CHARGE FORUM

E- Charge Forum is an International Summit focus on Electric Vehicle Charging Technology & Infrastructure Development and dedicated to EV Industry experts, EV Charging Equipment Manufacturers and Charging Infrastructure Developers to explore and establish electrical infrastructure and charge points to meet the needs of a new generation of electric vehicles and a platform to discuss about the development Challenges and opportunities in the industry and a high-level networking for the people of Electric Vehicle Charging Technology & Infrastructure sector. It is also an open platform to exchange the views, share the knowledge to promote the **EV Charging infrastructure in India**. The main aim of the forum is to make India significant player in Electric Vehicle Charging Technology & Infrastructure Development.

The main objective of the E- Charge Forum is to create a single platform where the Government, Non-Government, Industry Associations, State Government, Autonomous bodies, EV Manufacturers, Charging Infrastructure Provider, Research and Development organizations

, Battery Management Systems, Central and State Renewable energy Departments and concern government institutions, Buyers, Sellers, Training Centres, Investors, corporate and others of various industry professionals get together in one venue, thereby enabling the growth of EV Industry in India

E- Charge Forum is also bringing to the table a unique partnership platform, the best minds of the world from the Electric Vehicle Charging Technology & Infrastructure Development fraternity, regulators, investors, government agencies, grid and charging station operators, and OEMs together under a roof during the E- Charge Forum meet to provide an opportunity to understand the role of different stakeholders in building a nationwide charging network. This event will provide a platform for all stakeholders across the automotive and electrical vehicle industry to network and build business relationships and explore new technologies and innovations in the industry.

TOPICS

- EV Charging Infrastructure Developments– Challenges & Opportunities
- EV Charging Technology and Innovations
- EV Charging Infrastructure Development - Govt. Policies and Programs
- EV Charging & Energy Supply
- EV Charging Technology – Problems & Solutions
- EV Charging Network - Future of Energy Management
- EV Charging Ecosystem
- EV Charging Software & IT Support
- EV Charging Industry – Regulations and Standards
- Smart Technologies for Charging EVs
- Future Business Model in EV Charging Infrastructure Development
- Integrating Renewables and Battery Storage in EV Charging
- Investment in EV Charging Infrastructure Development
- Challenges for Network Operators in EV Charging Station
- Electric Vehicle Revolution in India
- Sustainable Development and Clean Energy
- Power Distribution and Protection Technology for EVs
- Battery Management Systems
- Battery Swapping: An Alternative Feasible Solution for EV charging
- State Govt. Policies for Charging Infrastructure Deployment

WHO SHOULD ATTEND?

- Electrical Charge Points Developers
- Electrical Grid Operators
- EV Industry Engineers
- EV Program Managers
- EV Fleet Managers
- Technical & Operational Staff
- Researcher & Scientist
- EV Charging Infrastructure Provider
- Electric Vehicle Manufacturers
- EV Charging Solutions Provider
- EV Designer
- Supply Chain & Logistics Organization
- Municipalities & Development Authorities
- Government Policy Makers & Urban Planners

BENEFITS OF ATTENDING THE E-CHARGE FORUM

- Latest market intelligence addressing the electrical infrastructure and EV charging points for the e-Mobility market
- Latest plans and policies on EVs and charging infrastructure
- Understand the current market dynamics of the electrical power industry.
- Explore the emerging opportunities in the EV charging space
- Strategies for infrastructure development for public and private charge points.
- Regulatory requirements, evolving

- standards, and interoperability needs
- Information on funding initiatives and rebate programs in key states
- Latest trends with an overview and projections for the automotive and electrical Vehicle industry
- Information about latest developments in charging technologies
- Understand the expectations of EV manufacturers
- New technological developments and innovations across the EV Industry

- Gain knowledge about the issues in building EV charging infrastructure
- Existing charging network and future demand in the sector
- Costing of operating charging sites
- Unique opportunity to integrate with a multitude of manufacturers and seek new market opportunities
- Networking opportunities and interact with potential customers and partners

ORGANIZERS

INDIAN EXHIBITION SERVICES (IES)

Indian Exhibition Services (IES) is a leading exhibition organizing company in India, actively involved for several years in creating strong business platforms through B2B exhibitions, seminars, conferences, buyer-seller meetings, and other trade promotion activities. We have been continuously engaged in the development of MSMEs, providing effective business promotion platforms for small-scale industries to showcase and promote their products. Our core objective is to create a strong bridge between buyers and suppliers within the MSME ecosystem, enabling sustainable business growth and long-term partnerships.

The core strength of Indian Exhibition Services lies in acting as a reliable connector between buyers and sellers. Every event organized by IES has been a resounding success, aligned with our commitment to maintaining international standards in delivering high-quality, professionally managed, and value-added exhibitions and events. In addition, IES actively works with corporates and large industries, offering powerful trade exhibition platforms to promote their products, strengthen brand value, and accelerate business growth through well-curated industry-focused events.

GREEN SOCIETY OF INDIA (GSI)

Green Society of India (GSI) is a registered and non-profit organization under the societies registration act XXI of 1860 with its head office in New Delhi (India) and working for the environment protection with the aim to create environmental awareness and Involved in research, investigative, educational work in the field of pollution, forest, wildlife, land & water use and various aspects of the environment.
